

SITE PLAN REQUIREMENTS FOR CELLULAR COMMUNICATION FACILITIES

For basic site plan requirements refer to Development Standard 2-02.

(11"x17" is acceptable if the proposal can be adequately depicted.)

Poles:

1. Plan view detail of antenna array
2. Pole diameter at base, top, and point of attachment
3. Offset (if any) from pole
4. Height, depth, and width of antenna panels
5. Detail of mounting hardware
6. Note addressing wire routing
7. Setbacks from all property lines and setbacks to nearest office/residential zoning
8. If collocation, show all detail of existing pole and antennas (footpegs, ports, external wiring, etc.)

Wall or Roof Mount:

1. Elevation of antennas and host building
2. Offset from wall, or distance from edge of roof
3. Height, depth, and width of antenna panels
4. Detail of mounting hardware
5. Setbacks from all property lines
6. Note addressing wire routing
